

FIDDLE PAL CAMP 2023 COVID POLICY (UPDATED 11/15/2022)

Fiddle Pal Camp will follow all COVID-19 related guidelines and recommendations from the Centers for Disease Control (CDC) and the Minnesota Department of Health (MDH) to create safe and healthy learning spaces. These guidelines and recommendations reflect the current state of the pandemic and are subject to change.

- Fiddle Pal Camp continues to monitor community levels of COVID-19 and relevant federal, state, and local guidelines and may update this policy if guidelines or conditions change.
- Fiddle Pal Camp strongly encourages vaccination against COVID-19 for all who are eligible. Vaccines are an important public health tool and have proven to drastically decrease poor outcomes of COVID-19 infections.
- Masks are optional. Participants who prefer to wear a mask are encouraged to do so. The CDC and MDH recommend high-quality, well-fitting masks (such as N95 or KN95 masks) to help protect against COVID-19.
- If a “High” COVID-19 Community Level is prevalent in the region at the time of camp, the CDC and MDH recommend wearing a mask in public indoor areas. Fiddle Pal Camp will notify campers via email and will post that guidance at the camp.
- If you have tested positive for COVID-19 within five days before camp, please stay home. If you are experiencing COVID-19 related symptoms, please stay home. If you begin to feel unwell while at camp, please notify camp staff so that arrangements can be made for you to return home.
