## Ages 9 and up! ADULTS WELCOME & ENCOURAGED

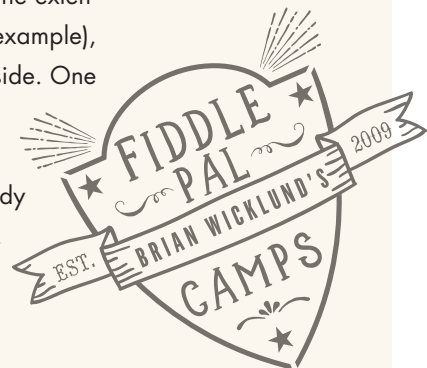

Our camps are open to ages 9 years old and up. YES, many adults join the camp! Fiddle Pal Camps focus on students with at least some experience on their instruments. We are **not set up to accept absolute beginners on any instruments.** Music is taught by ear in class with download-able sheet music for those who need it.

### FIDDLE PAL CAMP ABILITY REQUIREMENTS

**Violin students** are grouped by ability into beginner, intermediate and advanced classes. At minimum, students must be able to play tunes from the middle of **American Fiddle Method Volume 1** or Suzuki Book 1.

**Viola and cello students** will be grouped in the fiddle classes with violins. They should be comfortable with extensions and transposing and should be at minimum playing at the end of **American Fiddle Method Volume 1**, or Suzuki Book 3. Because of the extensions and the physical challenges with playing tunes in fiddle keys (key of A for example), it's recommended that cellists and violists register for a class that's on the easier side. One can always change if a class seems too easy or difficult.

**Mandolin, guitar and bass students** must have a minimum of one year study on the instrument and should be able to play some tunes and know some chords.
